

Proposal for Uniform Management Software for Ambulance Driver Uniform Supply

MSC Qatar, PO Box 23730, Doha – Qatar

Email: adnan.j@msc-q.com

Date: 11-August-2025

Introduction

Ecogo Software Solutions Pvt Ltd proposes the development and deployment of a **Uniform Management Software** customized for hospitals to manage the supply and distribution of uniforms for ambulance drivers.

The system will smooth ordering, inventory control, user management, and automated notifications via email and WhatsApp ensuring efficiency, transparency, and timely delivery.

- Automate and digitize the uniform ordering process.
- Provide real-time inventory tracking.
- Enable smooth approval and dispatch workflows.
- Maintain centralized driver and uniform usage records.
- Deliver automated order status updates.

Scope of Work & Key Features

Order Management

- Driver-initiated requests via web or mobile.
- Admin/staff approval workflow.
- Order tracking (Pending, Approved, Dispatched, Delivered).
- Search and filter orders.

Inventory Management

- Live stock tracking by type and size.
- Low stock alerts.

- Stock movement history.
- Consumption reporting.

User Management

- Role-based access (Admin, Store Manager, Driver).
- Driver profiles with uniform size & history.
- Admin control for user creation/editing.

Notifications

- Email & WhatsApp status updates.
- Low stock alerts to admins.
- Delivery confirmations.

Reporting & Analytics

- Monthly, quarterly, and yearly reports.
- Stock and order movement analytics.

Benefits

- **Efficiency:** Reduced manual work.
- **Transparency:** Clear tracking of stock & orders.
- **Cost Control:** Optimal inventory use.
- **Accountability:** Complete audit trail.
- **Communication:** Instant updates to stakeholders.

Implementation Plan

Phase	Activity	Timeline
1	Requirement Analysis & UI/UX Design	1 Week
2	Backend & Database Development	2 Weeks
3	Frontend Development	2 Weeks
4	Notification & API Integration	1 Week
5	Testing & UAT	1 Week
6	Deployment & Training	1 Week

Total Duration: 8 Weeks

Commercial

In consideration of the Services provided by Ecogo under this proposal, the client agrees to pay as per the breakdown listed below.

Item	Qty	Amount (QR)
Uniform Management Software for Ambulance Driver Uniform Supply	1	4300.00
Sub Total		QR 4300.00
Total		QR 4300.00

Payment Terms

- 50% – Upon Contract Signing.
- 35% – Upon UAT Approval.
- 15% – Upon Final Delivery & Training Completion.

Terms & Conditions

1. Payment must be cleared within **7 days** of invoice date.
2. Delayed payments may result in suspension of services until dues are cleared.
3. AMC includes bug fixes, minor updates, and technical support. Major feature upgrades are excluded from AMC and will be quoted separately.
4. The client is responsible for providing accurate requirements and feedback within agreed timelines.
5. Hosting, domain, WhatsApp Business API charges, and email service costs are excluded unless specified in the proposal.
6. Any third-party service or license fee will be borne by the client.
7. AMC (Optional): 15% of total invoice per year after 6 months of free support.
8. Ecogo Standard Terms & Conditions will apply.

Exclusions

The following items are **not included** in this proposal unless explicitly agreed upon:

- WhatsApp Business API account setup and charges.
- Email hosting and SMTP service costs.
- Integration with third-party hospital ERP unless specified.
- Multi-language support beyond English (unless agreed).
- On-site support beyond initial training sessions.

Support & Maintenance

- **Free Support:** 6 months post-launch for bug fixes and minor updates.
- **AMC:** Optional at 15% of the total invoice per year.

Conclusion

By implementing this system, Hospital will modernize its uniform management process, improve operational efficiency, and ensure timely distribution to all ambulance drivers.

We are committed to delivering a high-quality, secure, and scalable solution that meets your operational needs.
